

June 2023

Dear Parents,

First grade is requiring that each in-coming First Grader reads at least 15 books over the summer. Your child can read his/her book alone or with a family member. The most important thing to remember is for your child to READ and ENJOY!!

A snake worksheet is attached for your child to record his/her reading progress. Each time your child reads for 30 minutes, a section of the snake should be colored. Also, once your child has finished a book, the title and author of the book should be recorded on the back of the snake worksheet.

The snake worksheet must be returned to your child's First Grade teacher at the start of the 2023 school year. Completion of this summer reading assignment will be counted as a homework grade in September.

Have fun reading!
