

Flat Stanley Summer Project *Incoming Second Grade*

*Where did Flat Stanley go on vacation? Who did he visit?
What did he find during his travels? What will he bring to
share with the Second Grade Team in August?*

- ✓ Please read Flat Stanley: His Original Adventure! By Jeff Brown
- ✓ Design a Flat Stanley of your own. (See attached page)
- ✓ Mail your Flat Stanley to a friend or relative near or far.
- ✓ Have your friend or family member take a photo or two with Flat Stanley in any location that they choose. Make sure Flat Stanley collects a few mementos from his trip. (Examples: flyers, shells, brochures, a newspaper article, tickets, etc.)
- ✓ Ask your family member or friend to mail Flat Stanley, his pictures, and his mementos back to you.
- ✓ When he returns, you will create a small collage (no bigger than 12 inches x 18 inches) with the mementos Flat Stanley found on vacation. You will use your collage to talk about Flat Stanley's summer adventures.
- ✓ Be sure to bring Flat Stanley and your collage on the second day of school.

Note: During the first weeks of school we will introduce mapping skills by locating the destinations Flat Stanley visited while on vacation.
